Graduation Project: A+ "Excellent"  
Major: Computer Science,  
Minor: Software Engineering  
Cumulative GPA: 3.1
- Scholar | Bridge year at AUC- School of Counting Education **2016-2017**  
720 Contact Hours covering the following courses: Academic English (Reading, Listening, Writing, and Speaking) - Critical Thinking - Life Skills - Information Technology- Research Writing

## Computer Skills:

- **Programming Languages:** C, C#, Java.
- **Web Apps:** HTML5, CSS3, JavaScript, PHP.
- **Frameworks:** Laravel PHP
- **Graphics:** Photoshop, Illustrator and Adobe Premier.
- **Other Technologies:** AWS, Docker Image, Server Administrator, Git, GitHub, Zendesk, FileZilla.
- **Very good knowledge of computer hardware, software, and Network.**

## Work Experience

- Backend Developer Aloo Company (الو) — Remote **April 2024 – Present**
  - Developed and maintained scalable backend systems using Laravel and MySQL across multiple production-level projects.
  - Built RESTful APIs integrated with mobile apps and admin dashboards.
  - Led backend development for 3 major platforms:
  - Aloo Talabat: smart ordering system for daily needs with custom product management.
  - Aloo Mashaweer: ride-booking system with dynamic scheduling and cost calculation.
  - ADC E-commerce: fashion store with advanced product variations, discount logic, and order workflows.
  - Collaborated with frontend/mobile teams to ensure smooth API integrations and performance optimization.Used Git for version control and managed releases across staging and production environments.
- Full stack Developer at Yousab Tech **Apr 2023: Apr 2024**
  - Co-founded and contributed to the development of the company's main website and client projects using Laravel (PHP) and modern frontend tools.
  - Worked within a collaborative team of developers, designers, and project managers to deliver robust, scalable web applications.
  - Took ownership of full-stack tasks including backend logic, frontend UI enhancements, and API integrations.

- Applied clean code principles, optimized performance, and implemented security best practices in all deployed systems.

## Trainings & Courses:

---

- Back-End Developer Intern At Systel **Aug : Sep 2019**  
Worked with a variety of datastores including Sql and MySQL.  
Used many programming language HTML, CSS, PHP, and JavaScript.  
Coordinated with local and remote teams to create the best implementation of the product.
- Former Trainee at MASRITY Organization. **2018**
- Course “Information Technology (IT)” At AUC
- TOFEL IBT exam at AMIDEAST
- IELTS exam at the British Council

## Projects:

---

- The First Digital Prescription in Egypt My Rx is an Egyptian healthcare platform that enables doctors to write electronic prescriptions instead of the handwritten prescription. And by 2030, it is expected that the era of the handwritten prescription will end, and all Egyptians will keep all their medical records at an electronic medical profile.
- Learning System for kids is education via the Internet, network, or standalone computer. Learning System4kids is the network-enabled convey of skills and knowledge. It may help to study perfectly in a very short time and will help students to know the management of past year perfectly. It also helps them through gamification that can be defined as a set of activities and processes to solve problems by using or applying the characteristics of game elements.

## Awards & Certificates:

---

- Certificate of Completion of HEI Private University Scholarship **2016- 2021**  
- Local Scholarship Program “LSP”
- Leadership in Action Program Completion Letter **2021**
- IIE Award of the academic year **2018-2019**
- English Language and Professional Skills Training Program  
A bridging year at the American University in Cairo. **2016-2017**

## Extracurricular Activities:
